It's the closest you'll get to a facelift without knives, needles and a four-figure bill! Once your skin is plumped and glowing, we'll finish with a vitamin infusion to deliver long-lasting moisture and youthful dewiness.

Add on an Omnilux Plus light at the end of your IPL treatment to aid the healing process and intensify results. Usually \$120 when taken on it's own, this is only \$50 per treatment for those having the Serious Skin Rejuvenation package. The additional results are amazing! Not only does it improve the quality of collagen being produced it also helps to reduce any redness or

swelling from IPL, therefore having both immediate and long term benefits. This offer is strictly limited to 3 treatments per package.

See chatline overleaf to discover what benefits you could achieve with Omnilux Plus as either an add-on or as a replacement for IPL in our Serious Skin Rejuvenation package.

Serious About Skin Chatline with Marianna

OMNILUX PLUS

Q: I've heard of Omnilux Revive, but what is Omnilux Plus?

A: Omnilux Plus is the new generation in Rejuvenation Photo Facials. Just as we were leaders in bringing the original Omnilux Revive red light technology to New Zealand nearly seven years ago, and have since transformed the lives of many clients with the acne-busting **Omnilux Blue** light, we are proud to be among the first to offer the state-of-the-art new Omnilux Plus. **Now available at all six ABOUT FACE Clinics**

Q: What does it do?

A: Anyone who's tried the original Omnilux Revive will know it's super-effective at brightening, smoothing and softening skin, reducing fine lines and wrinkles and plumping up the complexion. Omnilux Plus takes the next step – firming the skin particularly around the jowels, reducing deep lines and those around the eyes and improving overall skin tone. It's brilliant for minimising acne scarring and can be used following Botox and fillers to help their effects last longer. We recommend Omnilux Plus as a follow-up to IPL skin rejuvenation treatments – we've seen for ourselves how it helps speed up the healing process and intensify your results. *Have it with the IPL option of our Serious Skin Rejuvenation special (see overleaf) and you'll pay only \$50 a session!*

Q: How does it work?

A: Omnilux Plus works with your body's natural processes to stimulate collagen and elastin production and deliver intense rejuvenation. It's subtler and more relaxing than the bright red Omnilux Revive light so perfect for those who found the Revive light too bright on the eyes.

Q: How much does it cost?

A: Although you'll see an instant difference in your skin after just one half-hour treatment (\$120), you'll get the best results if you have a course of Omnilux. **If you're thinking of trying it, now is the time to make your move!** *Book the Rejuvenation Photo Facial option of our Serious Skin Rejuvenation special (see overleaf) before 31 August 2010 and you'll receive a microdermabrasion, nine Omnilux treatments and a Power of Three facial, all for the amazing price of \$999! Save \$400.*

Spring Colour Tips and Tricks Workshop

Discover the tricks to achieving natural make-up that looks effortless yet has you looking radiant. **We will be there to hold your hand and teach you expert tips and techniques during a 1.5 hour workshop where you actually apply the colour yourself.** We will introduce you to Clarins new Spring Colour Collection that features soft, natural hues and is aptly named Cotton Flower. The booking fee is \$60 and is redeemable on product purchased on the day. You'll go home with not only new application skills but also new colour items. The workshops will run from the end of August through September so grab five friends and put together your own group, or join a group of up to 10 participants for a great girls night out. Or if the group thing isn't really you, book in for a one-on-one tutorial (one hour). *All bookings must be prepaid. Phone your local ABOUT FACE now for dates, times and bookings.*

About ABOUT FACE

- We're excited that several selected ABOUT FACE therapists have attended an advanced cosmetic chemistry course with **Flo Barrett** (our very own local worldwide expert in skin diagnosis and cosmetic chemistry) to learn more about the effects of cosmetic ingredients on the skin as well as the skills to decipher even the trickiest ingredient list. We now have a trained expert in each of our clinics so book in for a 1 hour Advanced Skin Analysis (\$75) to learn more about what you should and shouldn't be putting on your skin – you may well be surprised!
- Congratulations to **Jackie** from Remuera who gave birth to Rhys, and **Cassi** from Mairangi Bay who had her little girl Eden on the same day! Also our warmest wishes go to **Aimee** who gave birth to a healthy boy, Lorenzo.
- With **Cassi** on maternity leave we are pleased to announce that **Melissa** will now be treating clients full-time. We also welcome **Natalie** who comes from KeriKeri to join us on reception and replace Melissa at front of clinic.
- We love nothing more than a wedding here at ABOUT FACE so we're thrilled that **Falan** will be walking down the aisle in September, and **Shae** at Sylvia Park has recently become engaged! Congratulations to you both.
- PS. Our top treats for Dad this Father's Day include an ABOUT FACE Men's Facial (\$99 for 60 minutes) or an Essentials Back Massage (\$75 for 45 minutes).
