

Grooming Essentials PRICE LIST

Intense Pulsed Light

What is IPL?

IPL is a fast and safe treatment which offers you clinically proven long-term hair reduction using our Ellipse IPL or Quantum IPL machines. Treatment with IPL or Quantum is not only more effective - it is also safer as treatment requires less energy. The visible light is absorbed by the pigment in hair and converts the light to heat which disables the hair follicle. The sensation of treatment is like a faint sting followed by a warm sensation, similar to that of a rubber band flicking the skin.

What will IPL do for me?

IPL treatments bring an end to tiresome hair removal methods. Results are excellent for the removal of dark hair on the face, back, chest, underarm, leg or bikini line.

How many treatments are recommended?

Approximately 4 to 6 treatments; however this is dependant on area and strength of hair. A quote is given during consultation.
 Consultation (prerequisite) 60 mins \$55
 IPL Treatmentfrom \$95
