HAIR REMOVAL

Permanent Hair Reduction with IPL

Throw out your razor! IPL (Intense Pulsed Light) offers safe, clinically proven, long-term reduction of dark hair on the face, back, chest, underarms, legs and bikini line. Visible light from our Ellipse I2PL machines is absorbed by the pigment in the hair and converted to heat, destroying the follicle. The sensation is like a faint sting followed by warmth, similar to that of a rubber band flicking the skin. A personalised quote is given during consultation.

Waxing

Temporary hair removal using organic disposable wax. Hot and strip wax available.

Electrolysis

Permanent hair reduction using the most effective progressive blend technique. Sterilised disposable needle included.

FEET

Pure Fiji Luxurious Spa Pedicare ♥

Enjoy a coconut milk foot soak, sugar rub exfoliation and foot and leg massage with a luscious body butter masque to hydrate. To finish, cuticles are groomed and nails painted.

LASHES & BROWS

We offer a full service for your lashes and eyebrow grooming.
