Laser Facial

Using our gentle Clear + Brilliant fractionated laser, this high-tech paramedical skin treatment will even skin tone, boost radiance, reduce pore size and enhance elasticity. This is not a “fluffy” facial, and there’s no dollop of pampering - but you’ll leave with skin results you’ll love. Perfect as a quarterly top-up (requires consultation before first facial.)

The Power of Three ♥

Our most potent signature skin treatment facial, using a bespoke combination of three technologies to address all facets of the skin. We also recommend this supercharged facial to maintain your skin after skin rejuvenation courses.

Ultraceuticals Radiance Plus+

This radiance boosting mask combines a powerful blend of eight skin brightening agents to rapidly reduce the appearance of hyper-pigmentation, dark spots and blotchiness to instantly reveal a luminous complexion.

HAIR REMOVAL

Permanent Hair Reduction with IPL

Throw out your razor! IPL (Intense Pulsed Light) offers safe, clinically proven, long-term reduction of dark hair on the face, back, chest, underarms, legs and bikini line. Visible light from our Ellipse I2PL or Quantum IPL machines is absorbed by the pigment in the hair and converted to heat, destroying the follicle. The sensation is like a faint sting followed by warmth, similar to that of a rubber band flicking the skin. A personalised quote is given during consultation.

Waxing

Temporary hair removal using organic disposable wax. Hot and strip wax available.

Electrolysis

Permanent hair removal using the most effective progressive blend technique. Sterilised disposable needle included.
